United States Department of Agriculture National Agricultural Statistics Service

Fact Finders for U.S. Agriculture

2022 Guide To Products and Services

Issued Annually

Today's Reports for Tomorrow's Decisions

A Word About NASS Reports...

The Agricultural Statistics Board (ASB) publishes reports of State and U.S. production, stocks, inventories, disposition, utilization and prices of agricultural inputs and commodities, other items such as labor, farm numbers and agricultural chemical usage.

National reports are issued from the Washington, D.C. Headquarters. Individual State reports are issued from the Field Offices (FOs) following release of the national reports. Printed copies of both ASB and FO reports are available for a fee.

An abundance of agricultural information is available to data users through our programs. In addition to the information above, estimates on more specialized commodities including hops, mink, cherries, cranberries, lentils and peppermint oil are also available. The information is geared toward producers and can help them plan planting, feeding, breeding and marketing programs. The data are also used by agricultural organizations, services, businesses, trade groups and financial institutions to determine demand for inputs, resources, transportation and storage-related crop and livestock products. Data are used to make and carry out agricultural policy concerning farm program legislation, commodity programs, agricultural research and rural development.

Data Security Is Our Top Priority, Names, addresses and personal identifiers are never revealed. NASS survey and census data never leave NASS control.

Only authorized persons working for NASS as employees or sworn partners, who are subject to fines and imprisonment for unauthorized disclosure, can access NASS data and only for approved statistical purposes. NASS does not conduct surveys or provide data for private, proprietary purposes. When NASS collects data for others in a NASS-approved statistical study, farmers and ranchers will always be informed about the cooperating sponsor and participation will always be voluntary. Summary data from all NASS surveys and censuses are available to everyone, but NASS will never disclose any individual's reported information.

Today's Reports, NASS reports are available electronically immediately after release via "Today's Reports" on the NASS homepage at www.nass.usda.gov.

E-Mail Subscriptions, E-mail subscriptions to NASS and World Agricultural Outlook Board (WAOB) periodicals are available free of charge. Each email provides a link to the publication and is generally delivered within a few minutes of release. Our electronic mailing list provides quick and timely access to the agricultural and economic information estimates.

NASS Revision Policy

Most estimates are subject to revision, if necessary, when the next estimate is prepared. Revisions are made to provide data users with the best possible data for evaluating the current estimates. Revisions are based on additional information, such as new surveys, late reports, corrected data or more complete administrative data.

Other USDA Publications, Several other USDA Agencies also issue a variety of economic reports which may be of interest to NASS customers. More information about the reports at these Agencies can be obtained from the following telephone numbers or Internet addresses:

Economic Research Service www.ers.usda.gov/

(202) 694-5050

Agricultural Marketing Service www.ams.usda.gov/

(202) 720-8998

Foreign Agricultural Service www.fas.usda.gov/

(202) 720-7105

World Agricultural Outlook Board www.usda.gov/oce/

(202) 720-5447

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, political beliefs, genetic information, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Assistant Secretary for Civil Rights, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, S.W., Stop 9410, Washington, DC 20250-9410, or call toll-free at (866) 632-9992 (English) or (800) 877-8339 (TDD) or (866) 377-8642 (English Federal-relay) or (800) 845-6136 (Spanish Federal-relay). USDA is an equal opportunity provider and employer.

Welcome to the 2022 edition of the NASS Guide to Products and Services. For long time users, you will notice a change to the Table of Contents. NASS is currently in the process of revamping the Quick Stats database. Each of the eleven categories found in the Table of Contents will be "landing pages" in this new approach. By providing these categories, we hope to get data users acquainted with the new design. Although it will be a few years until database completion, we think it is important to get feedback early in the process as we work towards a friendlier approach to displaying and releasing our data. The new approach will be released in stages and built with flexibility so that changes can be made as opinions from data users, like yourself, express your thoughts with us. Please let NASS know if you have questions or comments as we move forward to make data dissemination an exciting feature at NASS. In the meantime, please explore the NASS Guide to Products and Services to see all the important information NASS will be releasing over the next calendar year.

- Dan Kerestes Director, Statistics Division

NASS Data Online

The NASS website (<u>www.nass.usda.gov</u>) provides easy access to the wide range of information and data products. Through the homepage, you can obtain copies of all reports described in this catalog, find commodity and price specialists and more.

A calendar of scheduled releases is available from the NASS Homepage. In the "Publications" dropdown menu, select "by Date (Reports Calendar)" under the "Browse NASS Reports" section. Then choose the year and month.

NASS Subject Specialists on the Internet

NASS maintains a listing of subject and commodity specialists for the various program areas. From the NASS Homepage, on the "Contact Us" dropdown menu, select "Ask a Specialist" at the bottom left column.

NASS Customer Service

NASS operates an information center, staffed from 7:30 a.m. to 4:00 p.m. ET Monday-Friday, to assist you with accessing reports and data via the Internet, or printed copies. Please call (800) 727-9540.

Quick Stats - Agricultural Statistics Online Database

NASS data is also found in the online Quick Stats database free of charge. At the beginning of 2020, the Quick Stats database contained around 45 million rows. Most data are available at or soon after release time. It can be accessed at quickstats.nass.usda.gov or from the NASS homepage under the "Data and Statistics" dropdown menu. The web application allows custom queries based on survey or census program, commodities and characteristics, geographic levels, and time periods. The "Spreadsheet" option downloads a csv file.

For power users, there are two additional methods to retrieve either large amounts of data or recurring data pulls. One is an API (Application Programming Interface) and the other is large text files containing segments of Quick Stats data refreshed nightly. See the "Developers" and "Help" tabs at quickstats.nass.usda.gov for more information.

Economics, Statistics and Market Information System (ESMIS)

Through a cooperative project with Cornell University, the Albert R. Mann Library distributes NASS, Agricultural Marketing Service (AMS), Economic Research Service (ERS) Foreign Agricultural Service (FAS), and World Agricultural Outlook Board (WAOB) periodicals and data files free of charge via the USDA Economics, Statistics and Market Information System at usda.library.cornell.edu. Reports are available electronically within minutes of release.

Subscribe to E-mail

Mann Library provides a free e-mail service for NASS reports. When a current report is released, a link to the report is sent via e-mail to the list of subscribers for that report. There are two options to subscribe to the National Reports; from the NASS Homepage at www.nass.usda.gov, select "National" located on the top right of the page under the social media icons, or in the "Publications" dropdown menu select "National Reports" under the section "Receive Reports by E-mail" in the right column. Follow the instructions on the next page to sign up and manage your subscriptions. There is no charge for e-mail subscriptions. You may "unsubscribe" at any time. For assistance with e-mail delivery, please call (607) 255-5406 or e-mail usda-help@cornell.edu.

Rich Site Summary (RSS) Alerts

RSS feeds are free content feeds from Web sites that contain article headlines, summaries and links back to full-text articles on the web. RSS uses XML technology to syndicate web content, sending it directly to your desktop, your web browser or a web-based RSS reader. Instead of visiting a specific Web site to search for new articles and features, RSS is a convenient way to alert you when content of interest appears on your favorite Web sites.

Currently NASS offers national feeds for its News and Coming Events, Today's Reports and Census of Agriculture. For more information visit: www.nass.usda.gov/Newsroom/Syndication/.

Data Users Meetings Give Us Your Feedback!

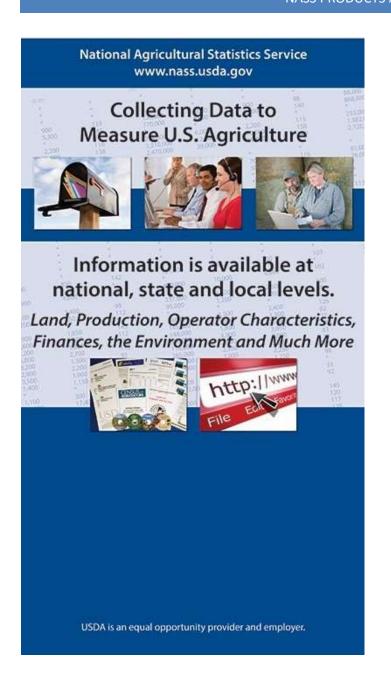

NASS sponsors annual U. S. Department of Agriculture (USDA) data users meetings to solicit comments and suggestions from users of statistical and economic reports issued by NASS, World Agricultural Outlook Board, Economic Research Service, Foreign Agricultural Service, Agricultural Marketing Service and the Foreign Trade Division from the Census Bureau.

These meetings provide an open forum where representatives of the data programs are available to answer questions about their agency's current programs and receive public suggestions for possible changes.

Proceedings are prepared from some of the meetings and provided to the participants.

These meetings are announced on the Internet at the NASS homepage **www.nass.usda.gov** under "Newsroom" as soon as they are scheduled for the upcoming year.

Written comments concerning the data users meetings, questions, or requests for additional information are welcomed. Please direct comments or questions to Patricia Snipe USDA-NASS, Room 5336A South Building, Washington, DC 20250-2000. Phone: (202) 690-8141, Fax: (855) 838-6336, or e-mail: patricia.snipe@usda.gov

Agricultural Chemicals & Pest Management

* Note since 2009, Agricultural Chemical Usage results are released through Quick Stats database only. Pre-defined queries are found at: www.nass.usda.gov/Surveys/Guide_to_NASS_Surveys/Chemical-Use/.

2006 Agricultural Chemical Usage Dairy Cattle and Dairy Facilities. Summary of information on chemical applications to dairy cattle and associated cattle structures/facilities.

2021 Agricultural Chemical Use Field Crops Summary, *May 13.* Chemical application rates and acres treated for selected 2020 field crops in major producing States and pest management practices used.

2021 Agricultural Chemical Use Fruit Summary, *July 20.* Chemical application rates and acres treated for selected 2020 fruit crops in major producing States and pest management practices used on program acres.

2009-2010 Agricultural Chemical Usage Postharvest Summary, Wheat. Pesticide application rates and quantity of postharvest wheat treated plus data on application methods and timing of applications for major producing States. Includes data on pest management practices used on target operations.

2010 Agricultural Chemical Usage Sheep and Sheep Facilities. Summary of information on chemical applications to sheep and associated sheep structures/facilities.

2005 Agricultural Chemical Usage Swine and Swine Facilities. Summary of information on chemical applications to hogs and associated hog structures/facilities.

2020 Agricultural Chemical Use Vegetables Summary, *July 21, 2021.* Chemical application rates and acres treated for selected 202 vegetables crops in major producing States and pest management practices used on program acres.

Survey Methodology and Quality. Information about the methodology and quality of the agency's estimates are available to give users a better understanding of the data. NASS publishes Methodology and Quality Measures for several surveys regularly each year. These reports describe survey processes and provide measures of the quality of the survey results. The methodology typically describes the scope and purpose, survey timeline, sampling, data collection, editing, analysis, estimators, and estimation processes. Quality measures are typically described by U.S. and state sample sizes, survey response rates, weighted item response rates, and coefficients of variation (where appropriate) for select data items.

Additional information to understand NASS estimates are published on the NASS web <u>Understanding Agricultural Statistics</u>. Some of these reports are:

<u>Understanding Crop Forecast</u> This publication describes the general methodology used to prepare the crop forecasts.

<u>The Yield Forecasting Program in NASS</u> describes statistical methodology of each survey used in the crop forecasts.

<u>Census of Agriculture Methodology</u> describes the methodology for the Census of Agriculture done every five years.

Aquaculture

Catfish Production. 2 issues.

February 11: February's issue contains water area and grower inventory; sales numbers by size groups for major production States and United States.

July 20: July's issue contains water area and grower inventory.

Trout Production, *February 28*, Grower sales, distributed trout and fish losses for major production States and United States.

2018 Census of Aquaculture. (Refer to Census of Agriculture for additional information.)

Survey Methodology and Quality. (Refer to Agricultural Chemical & Pest Management Methodology and Quality Measures for additional information.) Additional Reference: Methodology and Quality Measures

Census of Agriculture

The Census is conducted every 5 years to obtain agricultural statistics for each county, state, and the Nation.

2017 Census of Agriculture. The Census is the leading source of statistics about the Nation's agricultural production and the only source of consistent, comparable data at the county, State and national levels. The Census is authorized by law under Title 7, U.S. code and is conducted in close cooperation with the Nation's agricultural user groups and farmer organizations.

The Census includes all places from which \$1,000 or more of agricultural products, including government payments, were produced and sold, or normally would have been sold, during the census year.

Special Studies are conducted as follow-on programs to the Census of Agriculture. The follow-on programs include the Census of Aquaculture, Irrigation and Water Management Survey, Census of Horticultural Specialties, the Organic Production Survey and the Local Food Marketing Practices Survey.

Volume 1, Geographic Area Series

United States, State and County Data. Separate State reports display statistics for the entire State and every county or equivalent. The United States Summary provides national data and selected data for each State. Data include number of farms; farm characteristics; livestock, poultry and their products; crops; land use; irrigation; producer characteristics; ownership; income; production expenses; direct marketing; farm labor and migrant workers; agricultural activity on American Indian reservations; chemical use; computer use and more. Reports cover 2017, with comparative data for previous census years.

Appendix A. Census of Agriculture Methodology. Provides the methods used for the Census population, data collection, data processing, and disclosure review. Reliability tables are included.

2018 Census of Puerto Rico.

2018 Outlying Areas. American Samoa, Guam, Northern Mariana Islands, and U.S. Virgin Islands.

Volume 2, Subject Series

History, *January* 27, 2022. Provides a detailed report describing the planning and execution of the Census of Agriculture.

American Indian Reservations. Provides data that supplement the 2017 Census of Agriculture Volume 1. This publication presents selected operation and operator data for 73 American Indian Reservations. Data includes number of farms, land in farms market value of products, production practice and characteristics of the operation and producers.

Watershed Tabulations. Presents agricultural statistics by

6-digit Hydrological Unit Code for the contiguous 48 states, Alaska and Hawaii. The data tables show the number of farms, land in farms, cropland harvested, irrigated acres, acres treated with fertilizer, acres treated with chemicals, selected crop acreage, organic acreage and inventory of selected livestock.

Typology. The 2017 Census of Agriculture Farm Typology report provides data that supplement the 2017 census. Selected census statistics by typology categories that group farms with similar characteristics are provided. It primarily focuses on the "family farm," or any farm where the majority of the business is owned by the producer and individuals related to the

producer, including relatives who do not live in the producer's household.

Specialty Crop Tabulations. Presents agricultural statistics for specialty crops for all farms in the 50 states. Tables show production, demographic and economic data for farms producing specialty crops. Specialty crops are defined as fruits and vegetables, tree nuts, dried fruits, nursery crops (including floriculture) and maple syrup. Some USDA agencies do not consider maple syrup a specialty crop, so data are provided that include and exclude maple syrup to accommodate either definition.

Specialty Crops for Outlying Areas. Provides data on number of farms, acres harvested, and value of sales for specialty crops in Puerto Rico, American Samoa, Guam, Northern Mariana Islands, and U.S. Virgin Islands.

Volume 3, Special Studies

2018 Census of Aquaculture. Provides statistics about the U.S. aquaculture industry at National and State levels. Data collected include production methods, water area and sources, production, sales, sales outlet and aquaculture for restoration, conservation, enhancements and recreation.

2018 Irrigation and Water Management Survey. Displays results from a sample survey of farm and ranch operators who reported using irrigation in the 2017 Census. Includes acres irrigated; yields of specified crops; method of distribution; quantity and source of water used; number and depth of wells; pumps used in moving water; energy use; and expenditures for maintenance and investments for each State, 20 water resources regions and the United States.

2019 Census of Horticulture Specialties. Provides data at national and state levels on number and kinds of horticultural specialty operations, value of sales, and types of products.

2019 Organic Survey. Provides statistics on acreage, production, sales, price, expenses, and other data for various organic crop and livestock commodities at national, state, and commodity levels.

2020 Local Food Marketing Practices Survey, *Spring 2022.* Provides comprehensive statistics on local agricultural economies.

Rankings and Profiles

State and County Profiles. Based on results of the Census of Agriculture, describes changes in several key agricultural statistics. Also provides the rank of each county in the State and the Nation in crop acreage, livestock inventories and sales. Graphics included.

Congressional District Rankings. Presents agricultural statistics by Congressional district (116th Congress) for all

farms in all 50 States. Tables show the total market value of products sold and the number of farms by size for land in farms, cropland harvested, selected crops and inventory of cattle, calves, hogs and pigs. Crops vary by State and tables show number of farms by acres harvested for commodities such as tobacco, cotton, soybeans for beans, peanuts for nuts and land in orchards.

Online Resources

Census Data Query Tool. Access 2017 Census data by table with the Census Data Query Tool at https://www.nass.usda.Quick_Stats/CDQT/Chapter/1/table/1 All data queries are downloadable as .csv files for use in spreadsheets.

Agricultural Atlas. Features thematic maps highlighting agricultural activities and characteristics such as the number of farms, selected crops harvested, selected livestock inventories and poultry (broilers) number sold. Covers the United States, States and counties. **All maps are available at www.nass.usda.gov/AgCensus.**

Agricultural Census Web Maps. An online application utilized to access key Census data through a collection of interactive maps.

Highlights. Key findings from the Census of Agriculture and from one or more surveys.

Zip Code Tabulations. 2017 Census of Agriculture counts of farm characteristics by five-digit postal ZIP Code.

Custom Census Products

Navajo Nation Profiles. Selected 2017 Census of Agriculture statistics of producer and farm characteristics by Navajo Nation agency and chapter. https://www.nass.usda.gov/Publications/AgCensus/2017/O nline_Resources/Navajo_Nation_Profiles/index.php

Special Organics Tabulation. Selected census statistics of operator and farm characteristics by all farms and farms with organic sales are provided.

Census Related

2019 Survey of Irrigation Organizations. Provides data about local irrigation decisions and their impact on drought resilience.

2019 National Farmers Market Managers Survey. Measures the customer demand of local foods from the Farmer's Market manager's perspective. This survey is planned for every 5 years.

Organic Certifiers 2015/2016 Summary. Provides statistics on certified acreage and livestock commodities at the national and state level.

2021 Organic Survey, *December 15*, Provides statistics on acreage, production, sales, price, expenses, and other data for various organic crop and livestock commodities at national, state, and commodity levels. **Results available at**

https://www.nass.usda.gov/Surveys/Guide_to_NASS_Surveys/Organic Production/index.php

2014 Tenure, Ownership and Transition of Agricultural Land (TOTAL). Provides a comprehensive picture of farm land ownership and farm economics, including operating expenses, demographic information on land owners, capital expenses, farm debt and assets, labor needs, and household characteristics.

National Conservation Practices and Adoptions Motivations (CPAM) Survey, *September 15,* The CPAMS release will be in two phases in 2022 and 2023 and includes information on conservation practices.

Dairy

Agricultural Prices. 12 monthly issues. All issues present prices received by farmers for principal crops, livestock and livestock products; indexes of prices received by farmers; parity prices; prices paid for input items and feeder livestock; indexes of prices paid by farmers and livestock/poultry feed price ratios. The NASS Quick Stats database is updated monthly with historical index revisions at www.nass.usda.gov. A description of parity prices including authority for, method of computation and prices used in parity computations. (*Refer to Economic Agricultural Prices for additional information.*)

Capacity of Refrigerated Warehouses 2021 Summary, *January 31*, Biennial report. Number of warehouses and capacity by State and U.S. number of general warehouses public and private.

Cattle. (Refer to the Livestock for additional information.)

Cold Storage. 12 monthly issues plus annual summary and biennial *Capacity of Refrigerated Warehouses*, published in even years.

Jan 24, Feb 22, Mar 23, Apr 22, May 23, Jun 23, Jul 22, Aug 22, Sep 22, Oct 24, Nov 22, Dec 22. End-of-month stocks of meats, dairy products, poultry products, fruits, nuts and vegetables in public, private and semi-private refrigerated warehouses.

Cold Storage 2021 Summary, *February 28.* Regional and national totals for end-of-month holdings of meat, dairy products, poultry products, fruits, nuts and vegetables in public, private and semi-private refrigerated warehouses for 2021.

Dairy Products. (Refer to the Livestock for additional information.)

Livestock Slaughter. (Refer to the Livestock for additional information.)

Milk Production. 12 monthly issues plus annual summary.

Jan 24, Feb 23, Mar 21, Apr 20, May 18, Jun 21, Jul 21,

Aug 22, Sep 19 Oct 20, Nov 21, Dec 19. Number of milk cows, production per cow and total milk production during preceding month for major States and U.S. in all issues.

January 24, April 20, July 21, October 20: Number of milk cows and production quarterly by State and U.S.

February 23: Number of milk cows, production per cow and milk production revised by months, 2020 and 2021 by State and U.S. Licensed dairy herds by State and U.S.

Milk Production, Disposition and Income 2021 Summary, *April 28.* Annual number of milk cows, production per cow and production for the year by State and U.S. 2020-21. Amount of milk used on farms and amount sold, cash receipts and value of production by State and U.S.

2021 Organic Survey. (Refer in Census)

Survey Methodology and Quality. (Refer to Agricultural Chemical & Pest Management Methodology and Quality Measures for additional information.) Additional Reference: Methodology and Quality Measures

Demographics

Race, Ethnicity and Gender Profiles. Based on results from the Census of Agriculture, detailed data by state and county are provided for several categories of operations. Results available online only at www.nass.usda.gov/AgCensus.

Economics

Agricultural Prices. 12 monthly issues. All issues present prices received by farmers for principal crops, livestock and livestock products; indexes of prices received by farmers; parity prices; prices paid for input items and feeder livestock; indexes of prices paid by farmers and livestock/poultry feed price ratios. The NASS Quick Stats database is updated monthly with historical index revisions at www.nass.usda.gov. A description of parity prices including authority for, method of computation and prices used in parity computations.

January 31: Revised monthly prices for rice; marketing year average prices for rice. Grazing fee rates on privately owned non-irrigated land for 17 western states. Revised historical series of prices received and prices paid indexes.

February 28: Revised monthly and annual average prices for meat animals. Annual average prices received for wool and mohair are published in the January Sheep and Goat publication. Adjusted base prices used in computing parity prices, including commodities not included in the monthly report.

March 31: No special features.

April 29: Revised monthly and annual prices for milk, poultry, eggs and milkfat test percentages. Annual index bench-mark revisions for price paid indexes.

May 31: Historical monthly and marketing year average feed price ratios and market year average prices for tobacco. Value of all cattle and calves and sheep as of January 1, 2022; hogs and pigs as of December 1, 2021 are published in the Meat Animals Production, Disposition and Income summary.

June 30: Revised monthly U.S. monthly prices, marketing year average prices and marketing percents for barley, oats, and wheat.

July 29: Marketing year average prices for rapeseed, sugarbeets and sugarcane. Revised state monthly prices, marketing year average prices and marketing percents for canola, dry edible peas, flaxseed, lentils, and rapeseed. Marketing year average prices for rapeseed. Adjusted base prices used in computing parity; prices including commodities not included in the monthly report.

August 31: Revised state monthly prices, marketing year prices and marketing percents for wheat, oat, barley, hay, peanuts, and rye.

September 30: Marketing year average prices for mustard seed and safflower. Revised monthly prices, marketing year average prices and marketing percents for canola, sorghum, soybeans and sunflowers. Revised U.S. monthly prices, marketing year average prices and marketing percents for corn, and chickpeas, dry edible beans, pima cotton, and upland cotton. Monthly price revisions for fresh apples, peaches, grapes, and pears.

October 31: Year-to-date U.S. monthly prices marketing year average prices and marketing percents for rice.

November 30: Revised monthly prices, marketing year average prices and marketing percents for corn. Marketing year average prices for proso millet.

December 30: Marketing year average prices for citrus. Prices paid index for beef cattle production. Annual average prices paid for feeder livestock.

Cash Rents State, August 5. Irrigated cropland, non-irrigated cropland and pastureland cash rents per acre for States and U.S. Estimates are for the 2021 calendar year. Results available at quickstats.nass.usda.gov/.

Farm Labor. 2 issues.

May 25 and November 23. The Farm Labor Survey has been funded by the Department of Labor (DOL) since July 2010. Regional and national data for hired workers, hours worked, and wage rates are published semi-annually. Beginning in 2012 two quarters of farm labor data are published semi-annually in May and November. The May publication includes January and April data while the November publication includes July and October data. Estimates are made January, April, July and October for the week including the 12th of the month. Annual average wage rates, hired workers and hours worked are published in November.

Farm Production Expenditures 2021 Summary, *July 29.* Revised 2020 and preliminary 2021: Estimates of farm production expenditures by U.S. farm production regions, type of farm and economic class for major expenses.

Farms and Land in Farms 2021 Summary, February 18. Number of farms in operation, land in farms and average farm size by acres during 2021 and revisions for 2020; State and U.S. data. Selected State sales class estimates for number of farms and land in farms.

Grazing Fees, *January 31*, 2021. Grazing fee rates on privately owned non-irrigated land for 17 western states. Revised historical series of prices received and prices paid indexes.

Land Values 2022 Summary, *August 5*. State, regions and U.S. agricultural land values for 2022 including 2021 revisions. Estimates are on a per acre basis and include value of all land and buildings, cropland and pasture.

Agricultural Statistics Book 2022, November 2022 A comprehensive statistical report (approximately 500 pages) containing current and historical agricultural data, revised annually. Statistics cover grain and feed; cotton, tobacco, sugar crops and honey; oilseeds, fats and oils, vegetables and melons; fruits, tree nuts, and horticultural specialties; hay, seeds and minor field crops; cattle, hogs and sheep; dairy and poultry statistics; farm resources, income and expenses; taxes, insurance, credit and cooperatives; stabilization and price- support programs; consumption; fertilizers and pesticides and more.

Survey Methodology and Quality. (Refer to Agricultural Chemical & Pest Management Methodology and Quality Measures for additional information.) Additional Reference: Methodology and Quality Measures

Field Crops

Agricultural Prices. 12 monthly issues. All issues present prices received by farmers for principal crops, livestock and livestock products; indexes of prices received by farmers; parity prices; prices paid for input items and feeder livestock; indexes of prices paid by farmers and livestock/poultry feed price ratios. The NASS Quick Stats database is updated monthly with historical index revisions at www.nass.usda.gov. A description of parity prices including authority for, method of computation and prices used in parity computations. (Refer to Economic Agricultural Prices for additional information.)

Acreage, *June 30.* Planted and harvested area by State for corn, potatoes, soybeans, all wheat, winter wheat, other spring wheat, Durum wheat, oats, barley, rye, sorghum, rice by length of grain, peanuts, oil and non-oil sunflower, flaxseed, canola, rapeseed, safflower, mustard seed, dry beans, sugarbeets, dry peas, chickpeas, and lentils. Planted area only for cotton and proso millet. Harvested area only for all hay, alfalfa hay, other hay, tobacco (by class and type) and sugarcane. Percent of area planted to biotechnology varieties in the U.S. and selected States for corn, soybeans and Upland cotton. Percent of soybean acreage double cropped by State. Percent of acreage planted for potatoes by types.

Corn Objective Yield Survey Data, 1992-2006. This report provides information on the types of data collected from the corn objective yield survey and how they relate to the Agricultural Statistics Board yield estimates. This report provides information to assist data users in understanding the corn objective yield program and the changes that have occurred in the objective yield data over a 15 year period.

Cotton Ginnings. 13 reports issued approximately twice per month during Aug-Mar ginning season, plus annual summary.

Jan 12, Jan 21, Feb 9, Mar 9, Aug 12, Sep 12, Sep 23, Oct 12, Oct 21, Nov 9, Nov 23, Dec 9, Dec 22. Running bales ginned to date for all cotton and American-Pima cotton by State. County ginnings, relating to first-of-month, are released with midmonth State ginnings.

Cotton Ginnings 2021 Summary, *May 12.* Running bales ginned, 480-pound bales ginned, average bale weight and number of active cotton gins by State and county for the ginning period.

Crop Production. 12 monthly issues plus annual summary and four supplements.

January 12: Hay stocks on farms December 1, 2021; indicated production of 2021-22 citrus fruits.

February 9: Indicated production of 2021-22 citrus fruits; area harvested, yield and production of sugarcane for 2021.

March 9: Indicated production of 2021-22 citrus fruits; area harvested, yield and production of sugarcane for 2021.

April 8: Indicated production of 2021-22 citrus fruits and revised production of 2020-21 citrus fruits.

May 12: Winter wheat indicated area harvested yield, production and U.S. production by class as of May 1. Indicated area harvested, yield and production for Durum wheat (Arizona and California); indicated production of 2021-22 citrus fruits. Hay stocks on farms May 1. Revised 2021 acreage, yield, production and bales ginned of cotton. Revised 2021 and final revisions for 2020 production and disposition of cottonseed. Objective survey data for cotton number of cumulative large bolls and harvest loss. Indicated 2022 production of peaches and almonds (California).

June 10: Winter wheat indicated area harvested, yield, production and U.S. production by class as of June 1; Durum wheat indicated area harvested, yield and production for Arizona and California; indicated production of 2021-22 citrus fruits; 2022 maple syrup production, 2021 maple syrup price and value. Revised 2021 maple syrup production. Objective survey data for winter wheat percent of samples processed in the lab. Indicated production of cherry (tart and sweet). Hops area strung for harvest by variety.

July 12: Indicated area harvested, yield and production as of July 1 for winter wheat, Durum wheat, other spring wheat, oats, barley, and flue-cured tobacco. Indicated production of wheat by class, apricots, almonds and 2021-22 citrus fruits. Objective survey data for winter wheat number of heads per square foot and percent of samples processed in the lab.

August 12: Acreage entered for certified seed potatoes; updated planted acreage - all crops, if changed; indicated area harvested, yield and production as of August 1 for corn for grain, winter wheat, Durum wheat, other spring wheat, oats, barley, cotton, rice, hay, sorghum for grain, dry edible beans, soybeans for beans, peanuts for nuts, tobacco (by class and type), sugarbeets, sugarcane for sugar and seed, and hops; indicated cottonseed production. Indicated U.S. production of wheat and rice by class, apples, peaches, pears, grapes and cranberries. Objective survey data for winter wheat number of heads per square foot and percent of samples processed in the lab. Planted acres by commercial class for dry edible beans.

September 12: Updated planted acreage - cotton, peanuts and rice, if changed; indicated area harvested, yield and production as of September 1 for corn for grain, cotton, rice, sorghum for grain, soybeans for beans, peanuts for nuts, tobacco (by class and type), sugarbeets, sugarcane for sugar and seed; indicated cottonseed production. Indicated area planted, harvested, yield and production for chickpeas, dry edible peas and lentils. Indicated U.S. production of rice by class, and walnuts. Indicated production of 2022-23 California Navel oranges. Objective survey data for selected States; corn plant populations and number of ears per acre, soybeans number of November 2021

pods with beans per 18 square feet, and cotton cumulative boll counts.

October 12: Updated, planted acreage - dry edible beans, canola, corn, sorghum, soybeans, sugarbeets and sunflower, if changed; indicated area harvested, yield and production as of October 1 for corn for grain, cotton, rice, sorghum for grain, hay, dry edible beans, soybeans for beans, peanuts for nuts, sunflower, canola, tobacco (by class and type), sugarbeets, sugarcane for sugar and seed; indicated cottonseed and pecan production. Indicated U.S. production of rice by class and 2022-23 citrus fruits. Revised canola, peanut and sunflower acreage, yield and production for 2021. Objective survey data for selected States; corn plant populations, number of ears per acre and percent of samples processed in the lab, soybean number of pods with beans per 18 square feet and percent of samples processed in the lab, and cotton cumulative boll counts.

November 9: Indicated area harvested, yield and production as of November 1 for corn for grain, cotton, rice, sorghum for grain, soybeans for beans, peanuts for nuts, sugarbeets and sugarcane for sugar and seed; indicated cottonseed production. Planted acres, indicated area harvested, yield and production of potatoes. Indicated U.S. production of rice by class. Objective survey data for selected States; corn plant population, number of ears, row width distribution and percent of samples processed in the lab, soybean row width distribution, number of pods with beans per 18 square feet and percent of samples processed in the lab, and cotton cumulative large boll counts.

December 9: Indicated area harvested, yield and production as of December 1 for cotton, sugarcane for sugar and seed. Indicated production of cottonseed and 2022-23 citrus fruits. Objective survey data for selected States; cotton cumulative large boll counts.

Crop Production 2021 Summary, *January 12*. Acreage, yield, and production data for 2021 and revised for 2020. Objective survey data for selected States; corn plant populations, number of ears per acre, row width distribution; soybean number of pods with beans per 18 square feet; row width distribution.

Crop Production Historical Track Records, *April 11.* This report includes a historical data series and a comparison of preliminary to final planted and harvested crop acreage and a comparison of preliminary crop production forecasts to final and end-of-year crop production estimates.

Crop Progress. 35 issues, first workday of the week during growing season. Issued weekly during the growing season April-November; this report lists planting, selected development stages and harvesting progress and overall condition of selected crops in major producing States. The data, summarized by crop and by State, are republished in the *Weekly Weather and Crop Bulletin* released by WAOB.

Crop Values 2021 Summary, *February 24.* Marketing year average prices and value of production of principal crops,

12

preliminary 2021 and revised 2019 and 2018. Note: State estimates for fruits and nuts are included in "Noncitrus Fruits and Nuts 2021 Summary."

Current Agricultural Industrial Reports

NASS publishes four Current Agriculture Industrial Reports. They are: Grain Crushing and Co-Products Production, Flour Milling Products, Cotton System Consumption and Stocks, and Fats and Oils: Oilseed Crushings, Production, Consumption and Stocks.

Flour Milling Products. 4 issues plus annual summary.

Feb 1, May 2, Aug 1, Nov 1. This quarterly report covers all firms in the United States operating wheat and rye flour mills. Type of data collected are amount of flour and millfeed produced from wheat and rye.

Flour Millings Products 2021 Summary, May 2.

2021 North American Flour Milling, 1 issue. *May* 16. This publication is a result of a joint effort by Statistics Canada and NASS to release the flour milling production information for both countries within one publication.

Cotton System Consumption and Stocks. 12 monthly issues plus annual summary.

Jan 3, Feb 1, Mar 1, Apr 1, May 2, Jun 1, Jul 1, Aug 1, Sep 1, Oct 3, Nov 1, Dec 1. Monthly totals for running bales, end of month stocks in warehouses and cotton spinning facilities for major States and U.S Consumption of stocks and spindle utilization.

Cotton System Consumption and Stocks 2021 Summary, March 1.

Fats & Oils: Oilseed Crushings, Production, Consumption and Stocks. 12 monthly issues plus annual summary.

Jan 3, Feb 1, Mar 1, Apr 1, May 2, Jun 1, Jul 1, Aug 1, Sep 1, Oct 3, Nov 1, Dec 1. This is a monthly report that covers businesses that produce various edible and inedible fats and oils. This report also includes data that covers all establishments crushing or solvent processing vegetable oil bearing materials (oilseeds, beans, nuts, etc.); including establishments using a continuous process that immediately refines the oil. Type of data collected are amount of crop crushed, amount of processed oil and feed produced.

Fats & Oils: Oilseed Crushings, Production, Consumption and Stocks 2021 Summary, March 1

2021 North American Grain and Oilseed Crushing. 1 issue.

March 14. This publication is a result of a joint effort by Statistics Canada and NASS to release the soybean and canola

seed crushings information for both countries within one publication.

Grain Stocks. 4 issues.

January 12: On and off farm stocks of all wheat, Durum wheat, corn, sorghum, oats, barley and soybeans on December 1, 2021 by State; revisions of all wheat, Durum wheat, corn, oats, barley, sorghum, soybeans, flaxseed, rye, canola, mustard seed, safflower, rapeseed and sunflower for 2021. Number and capacity of off-farm storage facilities and capacity of on-farm storage facilities on December 1, 2021. On and off farms stocks of dry peas, lentils, and chickpeas on December 1, 2021 and revision for June 1, 2021

March 31: On and off farm stocks of all wheat, Durum wheat, corn, sorghum, oats, barley, soybeans and sunflower on

March 1 by State and previous quarter revisions.

June 30: On and off farm stocks of all wheat, Durum wheat, corn, oats, barley, sorghum, soybeans, flaxseed, canola, rapeseed, dry peas, lentils, and chickpeas and rye on June 1 by State and previous quarter revisions.

September 30: On and off farm stocks of all wheat, Durum wheat, corn, oats, barley, soybeans, sorghum, sunflower, safflower and mustard seed on September 1 by State and previous quarter revisions. Revised 2020 soybean and corn acreage, yield and production.

Grain Crushings and Co-Products Production. 12 monthly issues plus annual summary.

Jan 3, Feb 1, Mar 1, Apr 1, May 2, Jun 1, Jul 1, Aug 1, Sep 1, Oct 3, Nov 1, Dec 1. This is a monthly report that covers consumption of corn and sorghum. The publication provides data about agricultural commodities consumed for alcohol and other uses as well as the production of co-products and products in the United States.

Grain Crushings and Co-Products Production 2021 Summary, March 1.

Hemp Production. *February 17.* This report contains hemp acreage, yield, production and value for industrial, floral, grain, fiber and seed. Breakouts by hemp grown in the open and hemp grown under cover for each type of hemp.

Hop Stocks, 2 issues, *March 16* and *September 16*. Grower, dealer and brewer stocks March 1 and September 1.

National Hop Report, *December 19.* Area harvested, yield, production, price and value by State.

North American Potatoes, 2 issues, *January 19 and December 14*. This publication is the result of a joint effort by NASS, Agriculture Division, Statistics Canada and Servicio de

Informacion Agroalimentaria y Pesquera (SIAP) to provide producers with additional information about potato production in North America. The release includes area planted and harvested, yield, production, utilized production, market year average price and value of sales for both countries.

Peanut Prices. Weekly on Friday. U.S. average price and marketing by type of peanut (Runner, Spanish, Valencia and Virginia).

Peanut Stocks and Processing. 12 issues.

Jan 26, Feb 25 Mar 25, Apr 25, May 25, Jun 27, Jul 27, Aug 26, Sep 26, Oct 26, Nov 25, Dec 28. The reports include the stocks at end of previous month; millings, production and disappearance of milled products, previous month for the U. S. Preliminary season totals shown in August release. Revised season totals shown in August release.

Potatoes 2021 Summary, *September 28.* Production, farm disposition, value and stocks by State and utilization of potatoes for the United States, 2021 crop.

Potato Stocks. 4 issues.

Feb 17, Apr 14, Jun 17, Dec 16. Grower, processor and local dealer storage stocks in producing areas, first of the month by State.

Price Reactions After USDA Crop Reports, *March 11.* This report describes the market price reaction during the time periods surrounding the release of crop production reports.

Prospective Plantings, *March 31.* Expected plantings as of March 1 for corn, all wheat, winter wheat, Durum wheat, other spring wheat, oats, canola, barley, cotton, rice by length of grain, all sorghum, dry edible beans, dry edible peas, and lentils, chickpeas, soybeans, sunflower, flaxseed, peanuts, and sugarbeets; acreage for harvest of hay and tobacco (by class and type).

Rice Stocks, 5 issues.

Jan 12, Mar 31, Jun 30, Aug 19, Oct 21. Rough and milled rice stocks on and off farms, December 1, 2021, March, June, August and October (California only) by State and stocks by length of grain classes (five Southern States and California).

Small Grains 2021 Summary, *September 30.* Acreage, yield and production of wheat, oats, barley and rye for 2022, including revised data for 2021 and Production of wheat by class. Objective survey data for winter wheat number of heads per square foot.

Soybean Objective Yield Survey Data, 1992-2006. This report provides information on the types of data collected from the soybean objective yield survey and how they relate to the Agricultural Statistics Board yield estimates. This report

provides information to assist data users in understanding the soybean objective yield program and the changes that have occurred in the objective yield data over a 15 year period.

Wheat Objective Yield Survey Data, 1993-2007. This report provides information on the types of data collected from the wheat objective yield survey and how they relate to the Agricultural Statistics Board yield estimates. This report provides information to assist data users in understanding the wheat objective yield program and the changes that have occurred in the objective yield data over a 15 year period.

Winter Wheat and Canola Seedings, *January 12*. Seeded acreage of 2022 winter wheat; seedings of Durum wheat (AZ and CA). Seeded acreage of 2022 winter canola (KS and OK).

World Agricultural Supply and Demand Estimates. Issued monthly, WASDE provides the most current USDA forecasts of U.S. and world supply-use balances of major grains, soybeans and products and cotton; and U.S. supply and use of sugar and livestock products.

Survey Methodology and Quality. (Refer to Agricultural Chemical & Pest Management Methodology and Quality Measures for additional information.) Additional Reference: Methodology and Quality Measures

Fruits, Nuts and Vegetables

Agricultural Prices. 2 monthly issues. All issues present prices received by farmers for principal crops, livestock and livestock products; indexes of prices received by farmers; parity prices; prices paid for input items and feeder livestock; indexes of prices paid by farmers and livestock/poultry feed price ratios. The NASS Quick Stats database is updated monthly with historical index revisions at www.nass.usda.gov. A description of parity prices including authority for, method of computation and prices used in parity computations. (see Economic Agricultural Prices for additional information.)

Citrus Fruits 2022 Summary, *September 7.* Annual summary of acreage, yield, production, use, price and value 2021-22 crop and revised 2020-21 crop.

Coffee, *January* 21. This report contains bearing acreage, yield, total production, utilized production, average price, and value of production estimates for the current and previous two seasons. All components are published for cherry equivalent basis, and quantity and average price for utilized production is included for parchment and green equivalent basis.

Cold Storage. – (Refer to the Dairy for additional information.)

Cold Storage 2021 Summary. – (Refer to the Dairy for additional information.)

Crop Production. – (Refer to the Field Crops for additional information.)

Crop Values 2021 Summary. – (Refer to the Field Crops for additional information.)

Mushrooms, *August* 26. Agarics mushrooms: Area in production, volume of sales, utilization, price per pound, value of sales and by selected States and U.S. for July 1, 2021 - June 30, 2022 and intentions for the next season. Brown mushrooms: volume of sales and value of sales and U.S. for July 1, 2021 - June 30, 2022. Specialty mushrooms: production, volume of sales, price per pound and value of sales by variety and U.S. Also, area in production which includes natural wood outdoor logs, natural wood undercover and indoor logs and all other production media by variety and U.S. Sales of all certified organic mushroom at the U.S. level.

Noncitrus Fruits and Nuts 2021 Summary, May 4. Annual summary of acreage, yield, production, use, price and value of 2021 crop by State. Includes data for apples, apricots, avocados, berries, cherries, coffee, cranberries, dates, grapes, kiwifruit, nectarines, olives, papayas, peaches, pears, plums, prunes, strawberries, almonds, hazelnuts, macadamias, pecans, pistachios and walnuts.

Vegetable 2021 Summary, *February 16.* End-of-season 2021 estimates of acreage, yield, production, marketing year average price, value and utilization for artichokes, asparagus, snap beans, broccoli, cabbage, cantaloupe, carrots, cauliflower, celery, sweet corn, cucumbers, garlic, honeydews, head lettuce, leaf lettuce, onions, romaine lettuce, bell peppers, chile peppers, pumpkins, spinach, strawberries, squash, sweet potatoes, tomatoes and watermelons.

Vegetables Usual Planting and Harvesting Dates. NASS handbook Number 507. This handbook identifies the usual planting and harvesting dates for fresh market and processing vegetables as well as principal producing counties and major varieties for the vegetables covered in NASS's national program of crop estimates. The Field Offices of USDA NASS compiled the basic information, prepared the estimates of usual dates and designated the important areas of production and major varieties for their respective States. Growers and horticultural specialists were consulted to verify information published.

Survey Methodology and Quality. (Refer to Agricultural Chemical & Pest Management Methodology and Quality Measures for additional information.) Additional Reference: Methodology and Quality Measures

Horticulture and Floriculture

2019 Census of Horticulture Specialties. Provides data at national and state levels on number and kinds of horticultural

specialty operations, value of sales, and types of products.

Results available online only at www.nass.usda.gov/AgCensus.

Floriculture Crops 2021 Summary, *May 25.* Production, price and value of wholesale sales for US and 28 selected States and growers having \$100,000 or more in sales. Growing area for growers with \$10,000 or more in sales. Issue covers the following crops:

Cut flowers
Potted flowering plants
Foliage
Annual Bedding/Garden plants
Herbaceous perennials
Cut cultivated greens
Propagative Floriculture material

Livestock

Cattle. 2 issues.

January 31: Inventory number by class of all cattle and calves as of January 1, 2022 and number of calves born during 2021 by State and U.S. Number of all cattle and number by classes July 1, 2021, U.S. Total number on feed January 1, 2022 by State and U.S.

July 22: Inventory number by class of all cattle and calves as of July 1, 2022, U.S. Expected 2022 calf crop, U. S. Total number on feed July 1, 2022, U.S.

Cattle on Feed. 12 monthly issues.

Jan 21, Feb 25, Mar 25, Apr 22, May 20, Jun 24, Jul 22, Aug 19, Sep 23, Oct 21, Nov 18, Dec 23. All issues present monthly total number on feed, placements by weight group, marketings and other disappearance for feedlots with 1,000 head or more capacity for major States and U.S. Number on feed by class, shown for feedlots with 1,000 head or more capacity for major States and the U.S. in January, April, July and October reports. Number of feedlots and fed cattle marketings during 2021 and January inventory 2022 by size groups for U.S. in February report.

Dairy Products. 12 monthly issues plus annual summary.

Jan 6, Feb 4, Mar 4, Apr 1, May 4, Jun 3, Jul 1, Aug 4, Sep 2, Oct 4, Nov 4, Dec 2. Production of butter, cheese, frozen products, evaporated, condensed, dry milk and whey products. Shipments, stocks and prices of dry milk and whey products, major States and U.S.

Dairy Products 2021 Summary, *April 27.* Summary of production for manufactured dairy products for 2020 and revised data for 2020.

Equine, January 1, 1999. This is the only NASS publication of U.S. equine statistics. The report contains total equine inventory for 1998 and 1999, equine sold and value of sales.

Hogs and Pigs. 4 quarterly issues.

March 30: Inventory number by class as of March 1; December 2021 - February 2022 farrowings and pig crop; March - August 2022 intended farrowings for major States and U.S.

June 29: Inventory number by class as of June 1; March-May 2022 farrowings and pig crop; June - November 2022 intended farrowings for major States and U.S.

September 29: Inventory number by class as of September 1; June-August 2022 farrowings and pig crop; September 2022 - February 2023 intended farrowings for major States and U.S.

December 23: Inventory number by class of all hogs and pigs as of December 1; September - November 2021 farrowings and pig crop; December 2022 - May 2023 intended farrowings, major States and U. S.; annual farrowings (December 2021 - November 2022) by State and U.S.

For more hogs and pigs information, see Livestock Slaughter, Meat Animals: Production, Disposition and Income and Agricultural Prices February issue.

Honey, *March* 18. Annual report of number of colonies producing honey, yield per colony, honey production, average price and value, 2021 and revised 2020; honey stocks as of December 15, 2021, by State and U.S.

Honey Bee Colonies, *August 1.* Annual report of honey bee colonies, lost colonies, added colonies, renovated colonies and colonies affected by stressors by State and U.S.

Livestock Historical Track Records, September 14. This report compares the preliminary inventory or production estimates to the final inventory or production estimates for cattle, hogs and pigs, sheep and lambs, milk production, broilers, eggs, and turkeys.

Livestock Slaughter. 12 monthly issues plus annual summary.

Jan 20, Feb 24, Mar 24, Apr 21, May 19, Jun 23, Jul 21, Aug 25, Sep 22, Oct 20, Nov 23, Dec 22. Number of head, live weight and dressed weight of cattle, calves, sheep and lambs and hogs and pigs slaughtered in commercial plants and number by class in federally inspected plants by State. Also red meat production by species by State and U.S.

Livestock Slaughter 2021 Summary, *April 20.* Annual summary for total livestock slaughter and red meat production for 2021 by State and months. Number of cattle, calves, sheep November 2021

and lambs and hogs and pigs slaughtered in federally inspected plants by class for selected States and U.S. Number of goats and bison slaughtered in federally inspected plants in 2021, U.S. weekly number of head slaughtered in federally inspected plants by species and class, U.S. number of federally and nonfederally inspected plants and number of head slaughtered in 2021. Also, number of head slaughtered in federally inspected plants by size group and species, U.S.

Meat Animals Production, Disposition and Income 2021 Summary, *April 28.* Annual balance sheet and income estimates for cattle and hogs. Includes estimates of beginning and ending inventories, births, deaths, inshipments and marketings. Also includes 2019 and 2020 total production and marketings in pounds, value of production, cash receipts, home consumption and gross marketings by State and U.S.

Mink, *July 18*. Mink pelt production by color class by selected States, 2021 data and revised 2020. Females bred and to be bred in 2022. Value of pelt production.

Price Reactions After USDA Livestock Reports, *March 11.* This report describes the market price reaction during the time periods surrounding the release of livestock inventory report.

Sheep and Goats, *January 31*. Sheep and lamb inventory by class by State and U.S., 2022. Lamb crop by State and U.S., 2021. January 1 inventory of angora, milk and meat and other goats. Number of sheep shorn, wool production, price and value by State for 2021. Number of goats clipped, mohair production and value for AZ, NM and TX for 2021.

For more sheep information, see Livestock Slaughter.

Overview of the U.S. Cattle Industry, June 24, 2016. This report provides information on cattle supply and disposition numbers and trends which have implications for future cattle supplies. The report is provided to the industry and data users to provide a better understanding of the relationships within the cattle industry.

Overview of the U.S. Hog Industry, October 29, 2015. The Overview of the U.S. Hog Industry report provides an official periodic review of efficiency trends and changes in the structure of the breeding herd. This report also notes changes in hog operation size groups, compares historic hog prices and reviews live hog imports and marketings. This report compares 2014 production year data to the 2008 production data released in the Overview of the U.S. Hog Industry report published in October 2009.

U.S. & Canadian Cattle and Sheep, *March 3.* Inventory by class of all cattle and calves and number of calves born for U.S., and Canada combined. Inventory by class of all sheep and lambs and number of lambs born for U.S., Canada and combined.

United States Department of Agriculture

National Agricultural Statistics Service

U.S. & Canadian Cattle, *August 24.* Inventory by class of all cattle and calves and number of calves born for U.S., Canada and combined.

For more cattle information, see Livestock Slaughter, Meat Animals: Production, Disposition and Income and Agricultural Prices February issue.

U.S. and Canadian Hogs. 2 issues.

March 3 and August 24. This release contains inventory, sows farrowed and pig crop for U.S., Canada and combined.

Survey Methodology and Quality. (Refer to Agricultural Chemical & Pest Management Methodology and Quality Measures for additional information.) Additional Reference: Methodology and Quality Measures

Poultry

Agricultural Prices. 12 monthly issues. All issues present prices received by farmers for principal crops, livestock and livestock products; indexes of prices received by farmers; parity prices; prices paid for input items and feeder livestock; indexes of prices paid by farmers and livestock/poultry feed price ratios. The NASS Quick Stats database is updated monthly with historical index revisions at www.nass.usda.gov. A description of parity prices including authority for, method of computation and prices used in parity computations. (To see Poultry Agricultural Prices see Economic Agricultural Prices breakout.)

Broiler Hatchery. 52 issues weekly. Number of broiler chicks placed and eggs set for the previous week, 19 selected States and United States. Available every Wednesday or if Federal holiday is on a Tuesday or Wednesday then on Thursday.

Chickens and Eggs. 12 issues plus annual summary.

Jan 19, Feb 25, Mar 21, Apr 21, May 20, Jun 23, Jul 21, Aug 22, Sep 21, Oct 21, Nov 21, Dec 20. Number of layers on hand, eggs per 100 layers, and total eggs produced during preceding month by type of flock by major States and U.S. Number of layers and eggs produced per 100 layers on the first of the month by type of flock. Pullet chicks added and layers' disposition at the U.S. level. Layers being molted and molt completed during the previous month by major States and U.S. U.S. commercial hatchery data on number of broiler-type and egg-type chicks hatched during preceding month, major States and U.S. and number of eggs in incubators on the first of the month by region and U.S. Number of broiler-type pullet chicks for hatchery supply flocks (total and domestic) and number of egg-type pullet chicks for hatchery supply flocks, U.S.

Chickens and Eggs 2021 Summary, February 22. Revised monthly estimates of the number of layers on hand, rate of lay

and egg production States and U.S. for 2020 and 2021. Revised egg production during the month by type, selected States and U.S. December 1, 2019 and 2020 chicken inventories and values by State and U.S.

Cold Storage. (Refer to the Dairy for additional information.)

Cold Storage 2021 Summary. (Refer to the Dairy for additional information.)

Egg Products. 12 monthly issues.

Jan 28, Feb 28, Mar 29, Apr 28, May 27, Jun 29, Jul 27, Aug 29, Sep 28, Oct 28, Nov 30, Dec 28. Federally inspected, shell eggs broken, form in which broken.

Hatchery Production 2021 Summary, *April* 5. U.S. commercial hatchery data on number of broiler-type and egg-type chicks hatched, monthly, major States and U.S. for 2021 and revised data for 2020. Number of eggs in incubators on the first of each month by region and U.S. broiler chicks placed and eggs set by weeks for the 19 selected States and United States. Turkey eggs set and net poults placed, poults hatched U.S., capacity of chicken and turkey hatcheries by region and U.S.

Livestock Historical Track Records. (Refer to the Livestock for additional information.)

Poultry Production and Value 2020 Summary, *April 28.* Estimates of production and value for commercial broilers, eggs, turkeys raised and chickens (excluding commercial broilers) sold for 2020-21 by State and U.S.

Poultry Slaughter. 12 issues plus annual summary.

Jan 24, Feb 22, Mar 25, Apr 25, May 25, Jun 24, Jul 25, Aug 24, Sep 23, Oct 24, Nov 22, Dec 22. Number of head and pounds slaughtered under Federal inspection by type, for the U.S. Total liveweight of poultry slaughtered and condemnations by selected States and U.S.

Poultry Slaughter 2021 Summary, *February 25.* Also available as a separate issue in the above subscription. Number of poultry slaughtered by month, by type, and annual total for the United States. Pounds certified ready-to-cook, ante-mortem and post-mortem condemnations by type, by month and the U.S. total.

Turkey Hatchery. 12 monthly issues.

Jan 14, Feb 16, Mar 16, Apr 13, May 12, Jun 15, July 13, Aug 12, Sep 14, Oct 14, Nov 16, Dec 14. Number of turkey eggs in incubators on first of current month, net poults placed and poults hatched by month.

Turkeys Raised, *September 23.* Number of turkeys raised during preceding year and raised during current year, major States and U.S.

Overview of the U.S. Turkey Industry, April 30, 2014. This report presents 2008-2013 historical information on the U.S. turkey industry. NASS survey procedures and methodology are presented with a graphical interpretation of the data.

Survey Methodology and Quality. (Refer to Agricultural Chemical & Pest Management Methodology and Quality Measures for additional information.) Additional Reference: Methodology and Quality Measures

ACKNOWLEDGMENT

Many thanks to the farmers, ranchers and producers across the nation who willingly participate in the surveys with National Agricultural Statistics Service, U.S. Department of Agriculture. They are the strength behind the NASS agricultural inventory, production, price and environmental information, products and services. We appreciate their support and cooperation - they are the cornerstone of the food and fiber system that feeds and clothes the world.
