

March 26, 2007

**NEW YORK:** Snowfall during March was light, with the exception of one major storm over eastern New York while temperatures ranged from the single digits through the low 50's. The western part of the state received additional lake effect snow during March. Major activities: tending livestock, spreading manure, machinery repair and maintenance, grading and packing onions, apples, potatoes, and cabbage, maintaining facilities in winter, and attending winter meetings.
