A farm is defined as any establishment from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold during the year. The \$1,000 threshold can be met by any combination of sales and government payments. Land in farms includes: crop and livestock acreage, wasteland, woodland, pasture, land in summer fallow, idle cropland, land enrolled in the Conservation Reserve Program, and other set-aside or commodity acreage programs.
