Certified Organic Highlights

The 2016 Certified Organic Survey is a survey of all operations identified as having certified organic production. Certified organic farms must meet the standards set out by USDA’s Agricultural Marketing Service’s (AMS) National Organic Program (NOP) and be certified compliant by an approved agent of NOP. Results from the survey provide acreage, production, and sales data for a variety of certified organic crops and certified organic livestock.

In 2016, the United States had 14,217 certified organic farms that produced \$7.6 billion in certified organic products. South Carolina had 44 certified organic farms that produced \$11.6 million in certified organic products. Of the 3,163 acres of certified land in South Carolina, 2,900 acres were cropland and 263 acres were pastureland/rangeland. The top two certified commodities sold in South Carolina were tomatoes grown in the open with sales valued at \$487,711 and lettuce with sales valued at \$90,850.

For more information on the 2016 Certified Organic Survey and related reports, please visit the NASS Organic Agriculture page at: www.nass.usda.gov/organics.

Farms, Land, and Value of Sales on Certified Organic Farms: 2016 and 2015

Geographic area	2016			2015		
	Total certified farms	Total certified acres	Total certified sales (\$1,000)	Total certified farms	Total certified acres	Total certified sales (\$1,000)
United States	14,217	5,019,496	7,553,872	12,818	4,361,849	6,163,472
South Carolina	44	3,163	11,553	26	2,741	10,090

Certified Organic Crops Value of Sales: 2016
